Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Abadi (U.S. Patent No. 4,435,303).

The Abadi patent teaches scale-removing compositions that are particularly useful for removing calcium carbonate and iron oxides (See Column 4, Lines 40-47). The compositions may be formulated as aqueous solutions (See Example 4). The compositions may contain additional ingredients such as scents and dyes (See Column 4, Lines 34-39). The compositions may be employed in a variety of apparatuses, including humidifiers, by adding the composition to the water flowing by or otherwise in contact with the surfaces to be de-scaled (See Column 4, Line 59 to Column 5, Line 4).

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Art Unit: 1615

Claim 1 is rejected under 35 U.S.C. 103(a) as being unpatentable over Abadi.

The relevant portions of the Abadi patent are detailed in the above rejection under 35 U.S.C. 102(b).

Although the composition disclosed in the Abadi patent is not explicitly and precisely identical to the example given in the instant specification, it is the position of the examiner that the very broad scope of the instant claim allows for a rejection to be properly made under both 35 U.S.C. 102(b) and 103(a). The Abadi patent discloses each and every limitation of the instantly claimed invention, and thus, it is *prima facie* obvious.
